From the Director of Agriculture,
No. W.2-1653/48, dated 31-7-1948.

ORDER:

The proposals of the Director of Agriculture to decentralise the Artists and to the employment of three additional Artists are not accepted.

2. The inconvenience caused to each head of the Section in not having an artist under his immediate control does not appear to be so great as to justify the extra expenditure involved by the creation of three extra posts of Artists.

3. The Director of Agriculture is requested to arrange for better co-ordination between the sections and speedier execution of work. The failure of a centralised art unit to attend to the work of all the sections seem to indicate lack of effective control by the Principal, and he should be requested to exercise effective control.

4. The Director of Agriculture is requested to see that such unessential proposals for additional staff are not submitted to Government when retrenchment is contemplated in all Departments. Necessary instructions should be issued to all subordinate officers and to officers at headquarters.
